

National Home Visiting Summit

February 12 - 14, 2025

ABOUT THE SUMMIT

The National Home Visiting Summit, hosted by Start Early, brings together state and federal administrative and legislative systems leaders, federal, state, and local policy advocates, researchers, program and practice leaders, direct service providers, parents/caregivers and philanthropic partners who make that incredible reach possible.

The 2025 National Home Visiting Summit will take place February 12-14, 2025, in Washington, D.C., at the Grand Hyatt Washington, with an anticipated audience of 750 in-person attendees and an additional 500+ joining virtually via livestream of three plenary sessions. In 2024, the Summit drew 1,300 attendees to a hybrid conference, reflecting the high demand for Summit connections and content. Attendees at the Summit seek information and connections that support and strengthen their role as decision-makers and change agents in the home visiting field and connected systems (e.g., immigration, healthcare, child welfare, housing, etc.).
