ABOUT THE OUNCE ILLINOIS POLICY TEAM

The Ounce of Prevention Fund has a long history of advocacy work that is rooted in our deep experiences in Illinois. Through legislative, administrative and grassroots advocacy, our Illinois Policy Team seeks to shape the foundational elements of the state’s early childhood system, including major funding streams, legislation and federal and state initiatives. These elements should be designed, implemented and sustained to successfully achieve Illinois’ goal to equitably provide a continuum of high-quality, culturally and linguistically competent early childhood services that children and families need beginning prenatally and through the first five years.

IMPORTANT SUCCESSES IN THE 2019 LEGISLATIVE SESSION

The Illinois General Assembly passed the state's fiscal year 2020 (FY2020) budget, and it provides significant funding for the state's early childhood system. The fully funded FY2020 state budget includes a \$50 million increase to the Early Childhood Block Grant at the Illinois State Board of Education to expand and improve birth-to-five early childhood services.

It also includes funding for Department of Human Services' early childhood programs, including a \$28.8 million increase to the Child Care Assistance Program to expand income eligibility from 185% of the Federal Poverty Level (FPL) to 200% FPL, reduce parent copays, and to commit significant resources to the department for much-needed program outreach and recruitment.

There was a \$12 million increase to the Early Intervention program to accommodate the state's growing caseload and to support a long overdue rate increase. The increase also expands services to ensure that young children exposed to lead are eligible for Early Intervention services.

There was also level-funding for evidence-based home visiting programs for expectant and new parents through the Healthy Families and Parents Too Soon programs.

In addition to these important annual investments, the legislature passed a new capital infrastructure plan that included \$100 million for the Early Childhood Construction Grant Program. In addition to the budget wins, many other bills became law that are important for children and families, the early childhood system and early childhood practitioners.

Legislation supported by the Ounce and its advocacy partners is represented with an asterisk (*).
